Census Program

If this is in fact the case, then the adjusted weights could be used to produce an alternative estimator of the total sales. Field edits are also used to identify problems with data collection procedures and the design of the questionnaire, as well as the need for more interviewer training. The sector includes the following sectors; transportation, economic, health care, construction, banking, communication, retail, tourism and government.

Statistics Canada

They also opposed bilingualism, political correctness and the inclusion of a question on race on the 1996 Canadian census.
