### The Great Outdoors

The possum is a great California survivor, and not all that ugly.

### Los Angeles Wildlife in California Bird Bat Snake Squirrel Mouse

The Page Museum just beyond the pits displays the skeletons of thousands of the animals and birds that were trapped in the tar. Arcadia lies in the San Gabriel Valley of the Los Angeles County, around the same area as Pasadena. Food and feeder preference: Insects, seeds, and berries.

### Birds of Apollo Park

They arrive when the fruit ripens on the mulberry tree by one of the ornamental ponds. So now the birds come to him and that is an immense blessing.

### Common backyard birds of California (lists, photos, ID)

Malibu Lagoon enroute, as well as several birdy canyons. Click markers for site description.

### Birds of San Diego County, California · iNaturalist

Local parakeets are either Rose-ringed or Yellow-chevroned.

### Birding in California

You can also request a birding hotspot be added to the data.
