## Alternative work schedules

The FTSE 100 and FTSE 250 rose to their highest levels in a year on 9 September 2009 with the FTSE 100 breaking through 5,000 and the FTSE 250 breaking through 9,000. Therefore, an energetic interest policy would probably have to be supplemented by measures aimed at absorbing and removing the pent-up inflationary forces — perhaps on the lines of the Belgian model. Overcrowding was the third important source of crime.

## Winter of Discontent

Some of these industrial disputes caused great public inconvenience, exacerbated by the coldest winter for 16 years, in which severe storms isolated many remote areas of the country.

## Marshall Plan

The left-hand bar represents borrower households. German Export Steamroller The excessive German orientation on exports and the low-wage policy, on which it is based, have, over the years, repeatedly come under criticism from abroad. In the last analysis, the dollar is scarce in England while many other currencies, especially of the pound area, are abundant because it is easy to export to soft-currency countries and difficult to import from them.

## Economic history of the United Kingdom

Attlee found that Churchill's viceroy, , was too imperialistic, too keen on military solutions he wanted seven more Army divisions and too neglectful of Indian political alignments.
