Pomponius Mela's Description of the World

The Description of the World Chorographia, written by Pomponius Mela, was last translated into English over 400 years ago, and is the earliest surviving geographical work in Latin. Romer's translation and commentary on this work help the reader to appreciate the intellectual and physical shape of the ancient world as Mela and the Romans perceived it.

Pomponius Mela

On the divisions and boundaries of, and, he repeats Eratosthenes; like all classical geographers from except he regards the as an inlet of the Northern Ocean, corresponding to the Persian and Arabian gulfs on the south. Nansen, 1911 Pomponius Mela, who wrote around AD 43, was the earliest.

Pomponius Mela's Description of the World (9780472084524): Frank E. Romer

Like most classical geographers he conceives of the continent of Africa as surrounded by sea and not extending very far south. He is the author of numerous articles and has received awards for both his writing and teaching. This new study will intrigue students and teachers of ancient history.

Pomponius Mela's Description of the World

Leave a Reply BMCR provides the opportunity to comment on reviews in order to enhance scholarly communication. He defines the western coast-line of Spain and its indentation by the more accurately than Eratosthenes or Strabo, his ideas of the and their position are also clearer than his predecessors.
