Computers and religious education

Databases will be evaluated in terms of whether or not they are of sufficient value to be included as mandatory search tools or whether they should be included as supplemental resources for examiners to search, at their discretion, during the patent application examination process. The schedule through June of 2002 is set forth in the Supplementary Information section.

ISMEC Mechanical Technologies Power Brochure

Many of these journals are available in electronic format. Words: 780 - Pages: 4.
