About the Office of Science Advisor, Policy and Engagement (OSAPE)

Now is the time to modernize this antiquated law to simultaneously benefit both endangered species and the American people.

Environmental Management Programs

Within 30 days of receipt of the public notice, EPA may notify FDEP of its intent to comment on the proposed activity. Zinke and in September 2018 they won their lawsuit and on July 30, 2019, the Yellowstone grizzly was officially returned to federal protection. FAQs Q: Why does NTP care about studying glyphosate? Individuals will work collaboratively with Thorne's Executive Director to develop and.

Mining and Mitigation Program

So, sadly, he fits in well with EPA leadership. The announcement has been criticized by many national and international leaders, domestic politicians, business leaders and academics, as well as a large majority of American citizens 7 out of 10 according to a study by the Yale Program on Climate Change Communication. EPA would benefit from working with other federal agencies that are advancing ways in which the value of research is communicated to the public.

Glyphosate & Glyphosate Formulations

. In turn, FDEP will soon make available the forms for submitting a permit application.

5 Findings and Recommendations

After , in December 2016 the USACE under the Obama administration announced that it would not grant an for the pipeline to be drilled under and that USACE was undertaking an to look at possible alternative routes.

Abandoned Mine Lands Program

The review was paused in January 2018 for further environmental studies, the EPA said at the time.

5 Findings and Recommendations

The new proposal would only punish oil and gas and construction companies if they intentionally kill birds. In December 2018, the U. Christina Simeone, director of policy and external affairs with the Kleinman Center for Energy Policy at the , says that strict regulations aren't the only reason for the faltering coal market; natural gas has now become a cheaper option.
