Both historical sociologists and IR scholars have repeatedly stressed that states interact in a competitive system. Longitudinal comparison with the

monitor surveys in 2010 and 2014 reveals a slow decline in overall job satisfaction among communication professionals in Europe.

Las propuestas deben identificar un área del conocimiento específica y los manuscritos deberán estar relacionados con los temas de dicho número especial. Voir, par exemple, le texte de la Banque mondiale Rapport sur le développement dans le monde 2004 : Mettre les services de base à la portée des pauvres. A second and related issue is that of whether women's organizations and individuals should collaborate with states that are far from achieving desirable levels of democratic institutionalization and transparency.
