**Argent Fabricators, Argent Fabrication, Metal Fabrication Seattle, New York, Architectural, Decorative, ARGENT,**

Members of this team include project manager, engineer, programmer, fabricator laser operator and certified welders.

## Metal Fabrication & Metal Art

Sinclair Custom Metal has set a high standard for custom metal fabrication throughout the greater Lexington and Columbia, SC communities. Ornamental Metal Fabrication Custom Fabrication for Architectural Projects Pro-Fab offers optimum quality and service in our fabrication facility.

## Metal Fabrication and Finishing Services

Our state of the art facility, along with our highly trained and motivated staff can handle all of your projects, large or small. A simple google search for glass paintings will give you many inspirations for your next project. During this process we will also evaluate materials, sizes, finishes and other details which will to be determined.

## Custom Architectural Design and Fabrication

The wooden stamps with intricate designs are great for decorating garments. You can fill the colors inside the design and then do the outline or vice versa. You may have to scrub the paint from under the finger nails — a very frustrating process, believe me.

## Painting Company in Dubai

There is something very childlike in using your fingers to paint away directly on to fabric. Pro-Fab leverages its expertise in engineering and manufacturing to devise creative solutions to the broad design concepts in the project drawings.

## Decorative Painting Store

You may have applied the paint in very very thick layers — those take a long long time to dry though it may seem like it is dry on touching.
