**Souvenir - These Are The 10 Stages Of Awakening Each Person Has To Go Through Before Achieving Enlightenment...**

2. The initial ARG started in 2017 and was, as far as we know, a marketing stunt for the promotion of the game "The Initiative 2: The First Interview", available on Steam, as the sequel for "The Initiative". At the end of phase 2, before phase 3 began, any player who would complete the ARG up to that point would get their name in the video game itself, as a credit for their accomplishment. The name can indeed be seen inside a computer in the second game, however, the ARG did not end there.

Some players received via email (I believe a notification that Phase 3 was on. For our squad, we came in late, phase 3 was already started and we managed to reach the same block as everyone else we know. This is a formal help request.

If you want to start from the beginning without purchasing the first Initiative game, which gave you a code to start, please go to <https://www.the-enlightenment.com>. The first password, only available when finishing the first game, is **WMDCONCERNWORTH**. Some answers are only available in the game, too, but you'll get a taste of what you get and then can decide if you want to buy it or not!

Please note that, as of now, there's no going back to old "missions" in order to find clues or answers. All of the gated web pages and are stand-alone riddles.

EDIT: As of November 27th 2020, we got a reply confirming the dev team for the ARG is still online strong and that "the music itself has been considered by a few". Time to join

## The New Enlightenment

An assessment of the Enlightenment in global history, therefore, should not be concerned primarily with origins, either geographically or temporally. A global history perspective is emerging in the literature that moves beyond the obsession with the Enlightenment's European origins.

## Has The Countdown Begun?

Most disconcerting, Israel seems to have no interest in the possibility that radicalism itself, including Spinozism, could take many different current and future forms.

## The New Age to Come: The Countdown Begins

They have helped entrench a view of global interactions as having essentially been energized by Europe alone. June is D Day, but it could come sooner. All will see the sign given in this Cross; they will repent of not having listened to me, for having laughed at my messages and at my messengers, but it will be too late because they will have dissipated my graces.

## The New Age to Come: The Countdown Begins

I am reminded of a sci-fi movie I had seen recently where the main characters discovered a device that has been buried in a field for centuries and once it had been unearthed, the quest to find its purpose began in earnest. They married on May 25, 1930, when she was sixteen and he was thirty. The two current visionaries, Simona Patalano and Angela Fabiani, receive messages on the 8th and 26th of each month, and Don Ciro Vespoli, who provides spiritual guidance to them, was himself one of a group of seers during the initial phase of the apparitions, before he became a priest.

## Wacko Paco

Michel, for instance, does not support or even know of the messages of Maria Divine Mercy, and he supports Bishop Matthew H. As with most movie plots such as this one, it is very predictable as to the eventual outcome.

### **“The Mission Has Begun”**

In a follow-up meeting, Msgr. When Stefania and I began our journey in this direction, Jesus put us directly under His authority. We are so very happy for you that you have made it through 2020 and are now ready to help guide Humanity into the truly lighted year of 2021.

### **2021 : DISCLOSURE AND THE ASCENSION OF THE ELECT**

The Enlightenment has long held a pivotal place in narratives of world history. The New Deal was dead and the Old Deal had reclaimed control over American politics and American thought. Second, the incorporation of nations into the international state system was accompanied by strategies of nation-building couched in Enlightenment terms.

### **These Are The 10 Stages Of Awakening Each Person Has To Go Through Before Achieving Enlightenment...**

Rather, it was the work of historical actors around the world—in places such as Cairo, Calcutta, and Shanghai—who invoked the term, and what they saw as its most important claims, for their own specific purposes.
