equatorial plasma bubble: Topics by Science.gov

As a result of the smaller shorter-lived cavitation bubble, the LIBS intensity enhancement resulting from dual pulse excitation is reduced when the applied pressure increases. The results imply that the strong perturbations play an important role in the development of the EPB in low solar activity years.

1996 Nanying guo ji min su yi shu jie huo dong cheng guo zhuan ji = 1996 Nan Ying International Folk...

The equatorial region includes the equatorial bulge which shows no differences in these compositions compared to surrounding regions. Xinzhua yu yan xi suo.

equatorial plasma bubble: Topics by Science.gov

Despite the decades of study dedicated to electrical discharges in liquids, many physical aspects of liquids, such as the high inhomogeneity of liquids, complicate analyses. Nonlinear behavior of the system has been characterized by adopting more » nonlinear techniques such as Fast Fourier Transform, Phase Space Plot, and Recurrence Plot.
