And in the absence of any compensating industrial development this meant that the Irish peasant masses were faced with a life-and-death struggle to survive having been robbed of their land. They took part in the strikes and struggles of the workers which signaled the rise of the new unionism. He came to support self-determination and independence for the Irish nation as the best means for the Irish workers to fight capitalism.

### Reconsidering Marx and Engels on Ireland on JSTOR

The Irish peasant driven off the land formed an oppressed layer of the working class in England. Bourgeois-democratic revolutions had exploded throughout Europe against autocratic, reactionary monarchies and empires like the Austro-Hungarian, Prussian and Russian empires.
