Of course, the avant-garde does exist.

French poetry

The Conclusion briefly reviews the work of half-a-dozen other poets to demonstrate that cinepoetry has become the dark matter of contemporary poets in that it is simultaneously at work in their writing, yet eschewed as a utopian or modernist possibility, and unrecognized as a deep and central current flowing beneath all of twentieth-century poetry.

Jean Racine was seen as the greatest tragedy writer of his age. In his own highly idiosyncratic way, anticipates the stress on the unconscious, the body, and irrational motives in various areas of contemporary criticism. So from the moment of Drama, or of Writing and the Experience of Limits, which in 1965 was a major work on Dante, what did that have to do with the avant-garde? Psychological analysis was also central to 's novels, although he would come to be seen by Sartre as representative of an outdated fatalism.
