To Thomas Jefferson from James Madison, 5 December 1796

For the first fifty years of the new nation's existence, they formed a personal and political partnership, jointly working out the ideology of democracy and the practice of representative government. A Galloman or an Angloman will be supported by the nation he befriends.

Review: Was Madison More Radical Than Jefferson? on JSTOR

. Quite disappointed when it arrived, as it was intended as a gift for a history buff.

gathers together in three volumes the entire surviving correspondence of these two American giants.

The Republic of Letters: The Correspondence Between Thomas Jefferson and James Madison by James Morton Smith

It is in great condition save a few rubber stamps and stickers , but I can't seem to figure out if any other listings are for the other two volumes, because they all have the same generic description of the series as a whole and no indication of the volume. During the renovations, Madison relied on Jefferson for advice and assistance in procuring materials and even purchased nails from Monticello's. Large 8vo, 2073 pages, 8.
