**Yr Eglwys Gatholig**

He was clearly convinced about this necessity, and he noted his requirements in this way: he needed a man tolerably familiar with the Welsh language and able to converse and preach in it; one who was not a High Churchman and one who was not a rabid political opponent, though, as he pointed out more delicately to the bishop of Llandaff, he wished to give a preference to a man who would generally support his government. It was often observed that the Welsh language was less impaired or fissured by class usages than was English, that it remained a lingua franca for lord and peasant — assuming, of course, that the lord could actually speak any Welsh in the first place.

**Eglwys Gatholig**

Brown guides us through the latter half of the nineteenth century, an interesting period in Welsh church history when arguments were made concerning the responsibility of a national church regarding the language of Wales. Yn amlwg, at y Groes y cyfeirir yma.
