Inflatable Repair

Glue can also be purchased on Amazon.

Inflatable Boat Use and Care Instructions

Sharp objects are an obvious no-no and, if you plan to carry spear guns, knives, or other gear that cause punctures or tears, be sure to insulate them away from the hull of your inflatable.

Questions & Answers

It is not necessary to have an air pressure gauge to inflate Saturn boats. You may notice burns erosion at some area on the face of the blade.

Inflatable Boats: Selection, Care, Repair, and Seamanship: Trefethen, Jim, Trefethen, Clint: 9780070652521: styleguide.expo.io: Books

Coolers can also serve as dry storage containers.

Books About Inflatables

Apply the glue and wait the length of time specified by the instructions- no more and no less. From what I understand that the vast majority of boats are PVC and indeed I have a PVC boat. There are plenty of Inflatables rotting under the damaging sun in any local marine or harbor.
