## Towards a Systemic and Evolutionary Framework for Venture Capital Policy

It is also expected that the larger the fund the more investment managers would employ which may result to more time allowance for networking and interaction. As is the important role of the State in fostering both core technologies and application sectors. See about how to correct material in RePEc.

## Reducing Asymmetric Information in Venture Capital Backed IPOs

Hence, we hypothesise that: H1 Venture capitalists employed by public VC funds exhibit higher frequency of interaction with the Entrepreneurial Finance community bodies than venture capitalists employed by private VC funds.

## Information asymmetry

This representation is of one person's decisions in a game, however, it does not correspond to the actual timing of the player's decisions. The model features two sectors producing two types of consumer goods and two sectors producing two types of intermediate inputs soft machinery and heavy machinery which are used in the production of consumer goods with different intensities.

## Venture Capital Financing: The Role of Bargaining Power and the Evolution of Informational Asymmetry

Our work fosters integrating the venture capital literature with that on regional innovation ecosystems and supports better understanding of the way that VCs operate. Other limitations should also be kept in mind when interpreting the results of this study.
