## Questia

The south, chiefly represented by the regions of the southeast, southwest, East Anglia, and the Midlands, now contains the economically most dynamic sectors of the country, including the City the chief financial center of the United Kingdom and the seat of the national government, both in London. Richard Whateley publishes *Elements of Rhetoric*.

## Gender Division of Labour

Written in 2003, it is amazing that the book already reads a little datedly is culture moving that fast? But this can be challenged, and fathers are often successful in such cases. English historians Jill Liddington and Jill Norris explored women textile workers of the north, finding them politically astute and active. However, some women have obtained high-status, formerly male-dominated work, and the status of female-dominated work has risen.

## Gender Shifts in the History of English, *Journal of Linguistic Anthropology*

The emphasis on areas of nondevelopment also has influenced planning within cities and towns, with space being created for private and public gardens, parks, athletic fields, and other so-called greenfield sites.
