Glow: How You Can Radiate Energy, Innovation, and Success Audiobook

Drawing on years of original research, Gratton identifies three principles that people who glow live by, and three actions for putting each principle into practice. Supporting people in organisations to create fulfilling work and innovative performance has been my overriding mission for the past 20 years. Over the last five years Lynda has taken her message about energy and innovation to conferences around the world - including Australia, Austria, Estonia, Finland, Germany, India, Japan, the Netherlands, Singapore, and the USA.

Solar Radiation Basics

My research projects have helped me understand what it is that people like Frank actually do. We can do this by Glowing - by radiating positive energy that fosters a great working experience that excites and ignites others through our own inspiration, and delivers superior value through our work. Measurement Scientists measure the amount of sunlight falling on specific locations at different times of the year.

Books: Glow

It is this combination that will bring you long-term success in this technology-enabled world.

Glow: How You Can Radiate Energy, Innovation, and Success Audiobook

This book was given in exchange for an honest review.

Learn to glow

Certainly, their attitudes, skills, and habits played an important role in their success or failure at staying ahead of the curve.
