.

## The tragedy of Argentina

Given the downturn in the global economy and the rising risk of global financial volatility, there is no time to waste. That is to say, to invest in building a political framework that enables people to make decisions and plan with goals for the medium and long term as a result. Technological innovation needs not only educated people but access to money.

## Argentina's economic crisis is the result of avoidable mistakes

Also, with the government now facing a tough debt renegotiation, there hasn't been much room to implement fiscal stimulus.
