The Government of India has set up Bureau of Energy Efficiency BEE on 1st March 2002 under the provision of the Energy Conservation Act, 2001. Even in rural India, the National Food Security Act of 2013 — which entitles three-fourths of all households to 5 kg of wheat or rice per person per month at Rs 2 and Rs 3 per kg, respectively — has reduced the demand for millets. Mihir Shah, Member, Planning Commission on the stage Ms.

NSDOS

It began with a brief presentation by Pramathesh Ambata of SPS on the consortium, its perspective and achievements. The reason for this: Wheat has gluten proteins that swell and form networks on adding water to the flour, making the dough more cohesive and elastic.

MGNREGA in Madhya Pradesh: Opportunities and Challenges

She said that a part of the withdrawal of MGNREGA workers from the workforce in Madhya Pradesh was explained by the fact that assets had been created under MGNREGA schemes such as Kapildhara a GoMP scheme for construction of dugwells leveraging MGNREGA funds.

Energy Management: Issues and challenges

While there may be reason to believe that in a small part this tapering off could arise because of genuine withdrawal from the labour market of those whose livelihoods had been taken care of by MGNREGA, this could not be perceived to be a universal phenomenon and may perhaps be pointing more towards some systemic failures. NMEEE consist of four initiatives to enhance energy efficiency in energy intensive industries which are as follows: The primary energy consumption in India is the third biggest after China and USA with 5. But civil society should take an approach of solving problems in a spirit of dialogue rather than pointing out how bad things are.
