Points and Picas: The standard measurements used for type specifications are the Point approx.

**Pierre Simon Fournier ml.**

Towards the end of the 16th century, the Wechel family of Frankfurt was producing fine books which used French typefaces in conjunction with heavy but resplendent woodcut ornaments to achieve a splendid page effect; but soon after 1600 there was a general, marked decline in the quality of both skill and materials, from which German printing did not recover until the 20th century. After death Fournier's company remained open until the 19th century. The London ex-Glasgow and Two-Waters branches were purchased by the main line of the Caslon foundry just as they became H.

**18202530**

The Jenson roman was an explicitly typographic letter designed on its own terms that declined to imitate the appearance of hand-lettering.

But one could also see it as a sort of an explosion which distributed foundry materials and knowledgeable typefounders all over the map of early American typefounding. Merged into it at its creation in 1892.

#### **Pierre**

He designed an 'English Arabic' typeface to be used for a Psalter a Book of Psalms and a copy of the New Testament. Certainly, Albany was not large enough for two competing foundries.
