Context for aozora_Hisao

In the 2006 timeline, he is going by the name Manabu Nishizono, which is rather an obvious identity for Japanese speakers Manabu and Gaku share the same Kanji. However, Satoru had retrieved his memories before Gaku took him to the roof, and together with his friends, Satoru once again spoils Gaku's plan to kill a patient at the hospital.

Yuzuru Nishimiya
