It has liturgical metalwork vessels and rare pieces of Gothic furniture and metalwork. The march included black political parties; and William Worthy was one of many who led college students during the freedom struggle era. We don't have the money to fly in airplanes.

March on Washington for Jobs and Freedom

He had to take the heat. The motifs are derived from popular fables, or represent the brute forces of nature or evil, or are based on late 11th- and 12th-century monastic writings, such as those by 1090—1153. Jailers allowed inmates to watch the March on TV.

The Cloisters

The spectacle of a quarter of a million supporters and activists gave me an assurance that the work I was in the process of dedicating my life to was worth doing. As the march was being planned, activists across the country received bomb threats at their homes and in their offices.

The Cloisters

Left to Right — Willard Wirtz, Matthew Ahmann, Martin Luther King Jr.

The Cloisters

Students from the came together as black power organizations and emphasized the importance of the African-American freedom struggle. He thought the administration's caution came from ruthless political calculation.
