And there are efforts at increasing public awareness of biodiversity like and several good urban nature blogs. It focuses not only on ecological matters but also on political, economic, and societal issues that must be addressed for successful management planning.

Discovering nature within our cities

The gravel path descends to Coombe Brook Valley — a shady woodland of hazel, oak and sycamore, where a stream burbles between banks blooming with wild garlic. Eat more vegetables, and less meat. Birds such as barn owls and several species of venomous and non-venomous snakes are natural pest controllers - hunting rats and other pests almost everyday, cutting down chances of an infectious disease spread.

Wild hamsters in the city: how does EU law deal with urban biodiversity?

For a vegetation example, what may look like a desirable biodiversity-rich meadow to one person will look like a messy weed lot to another person.

Urban biodiversity hotspots wait to get discovered: The example of the city of Ioannina, NW Greece

NASA is the pioneer of science outreach. We vowed to come back with gloves and rubbish bags to do our bit to clean-up, and declared it our new favourite place to explore.

Importance of Urban Wildlife Management in the United States and Canada

Photo © TNC Devan King Urban wildlife encounters are generally higher in cities with more green space. I visited the Missouri State Nursery a couple of weeks ago to pick up some tree seedlings for a public program

Urban Ecology Resources

Every living thing needs fresh water for survival. National parks, wildlife refuges, and other protected areas remain essential, especially for to human-dominated landscapes. How does the age of the city affect biological diversity? But we can do more than imagine — increasingly we know.

Wild hamsters in the city: how does EU law deal with urban biodiversity?

After encountering a fox in northern Indianapolis, a reader asked us about the diversity of species that live in the city, and how they interact with humans. The falcon has been removed from the U.
