The next evolutionary period is marked by the rise of palaces on Crete and the later rise of palaces on the mainland. Chronological schemes for at least part of this period have been proposed in recent years by several scholars, and there is little doubt that they have carried the process. Our library is the biggest of these that have literally hundreds of thousands of different products represented.

He does the best he can do with the lacunae we have, and it is impressive and instructive just to watch. The recession was caused, he

demonstrates, not by external factors but by a process of internal collapse.

The Dark Age of Greece: An Archeological Survey of the Eleventh to the Eighth Centuries B.C.

That time period is called the Dark Age because we know so little about it. The search for an archaeology of process, which could construct a narrative that was independent, deriving neither from historical. The first millennium of the Bronze Age is signaled by large domestic construction on the mainland with a possible first presence of institutions beyond the household.
