Explore Natural Spaces

Tip For Exploration 4: Vertebrates, remind students to walk slowly and quietly and to freeze if they see an animal. They are always collecting submissions from kids! The camera is a great tool for collecting data and promoting observation. Have them record the names of these animals on the Exploration 4: Vertebrates page.

45 Fun and Engaging Outdoor Science Projects and Activities

We made nine of them.

Gary Raham (Author of Teaching Science Fact with Science Fiction)

The most adorable printable animal bookmarks including a turtle, seal, koala and ladybug bookmarks.

Explorations in Backyard Biology: Drawing on Nature in the Classroom, Grades 4

I love the way you make the subject so friendly and approachable. Students are encouraged to follow their dreams and use their own unique skills to mold careers in science and art.

24 of the Coolest Winter Science Experiments and Activities

Winter is a great time to set up a bird feeder and observe our feathered friends. Use that fact to your advantage and create a pinecone weather station in your backyard. Have you ever watched a bat colony? When you reach out to them, you will need the page title, URL, and the date you accessed the resource.
