## Da Capo Series in Science: Louis Pasteur : Free Lance of Science (Edition 2) (Paperback)

The first chapter paints a picture of the intellectual atmosphere of the 19th century; later chapters wax philosophical about the nature of scientific accomplishment and creative work.

### 9780306802621: Louis Pasteur: Free Lance of Science (Da Capo Series in Science)

Possible writing in margins, possible underlining and highlighting of text, but no missing pages or anything that would compromise the legibility or understanding of the text. Louis Pasteur, the fine scientist that worked to bring us better beer, wine and silks plus advanced vaccine studies to include an effective Rabies' treatment, is rendered boring by R. Individual subscriptions and access to Questia are no longer available.

### Louis Pasteur, free lance of science : Dubos, René J. (René Jules), 1901

It is more than a book about a great scientist; it presents the philosophy of science, and treats of the socio-economic and historical background which made possible the life and scientific contributions of Pasteur. His view of Pasteur as ecologist, the first to formulate in concrete terms a biological and chemical theory of global ecosystems, is only one of the many surprising insights into a man whose emblematic fame has obscured a complex and rich life.
