Assessment and Care Planning for the Frail Elderly: A Problem Specific Approach

Brush tests are appropriate in identifying allodynia, a condition associated with neuropathic pain where normally non-painful stimuli are perceived as painful. Br J Psychiatry 2004;184 5 :393-403.

Nursing Care Plan for Elderly Patients

There may be less tolerance to side-effects and the problems presented by polypharmacy may also be an issue. Ideally A1c should be under seven. Schrader G, Cheok F, Hordacre AL, Marker J, Wade V, Effect of psychiatry liaison with general practitioners on depression severity in recently hospitalised cardiac patients: a randomised controlled trial.

RACGP

For instance, younger adults with a urinary tract infection will have many or all of these
