Generally Accepted Recordkeeping Principles

COVID-19 and the great reset: Briefing note 25, September 30, 2020 Executives are more hopeful about the economy than they have been at any time so far during the COVID-19 crisis. McKinsey continues to research many aspects of leadership through the crisis. One critical finding: as lives become hyperlocal, modes of transport will change.

Environmental Health and Safety Record Keeping and Reporting

To get back to business, many companies are running spreadsheets to see how many people spaced six feet apart will fit in an office, planning one-way paths through the workplace, and figuring out adaptations to restrooms, lunchrooms, and entrances. The maturity model will be most useful to leaders who wish to achieve the maximum benefit from their information governance practices.

Recordkeeping regulations & environmental compliance analysis

Summer may be over in the Northern Hemisphere, but great reading knows no season.

Sound Income Strategies Launches ETFs for Retirees: Portfolio Products

If you would like information about this content we will be happy to work with you. In the short term, 70 percent of corporate-center executives plan to reconfigure office space, as do 54 percent of business-unit leaders.

ESG framework

Similarly, clusters in the United Kingdom have been identified around retirement homes, in hospitals, and in meatpacking factories—the latter also being a source of clusters in Germany. Yet, this question gains in importance as regulators, shareholders, and customers are increasingly concerned about the business practices of organizations. Also this week, McKinsey experts assessed the potential for to deliver much-needed growth and jobs; reviewed the impact of the pandemic on the ; and considered the moves that can make to thrive in the long term.

The Role of HR in Compliance

Whether determining state-specific requirements or the exact wording of instruments to comply with federal or state regulations, our environmental professionals have the best information available to help waste industry clients make informed decisions about their environmental risk management options and strategies.
