Land Management Guidance

As there is no intention to convey that the site continues to operate to an unacceptable level of non-compliance and given the absence of a new inspection trigger, the issuing authority will add a clarifying remark where a non-compliance statement appears in EudraGMDP over a prolonged period of time.

Landscape Character Assessment

Such proposals are subject to the same constraints as other major development proposals in areas of protection, and authorities will have to obtain listed building consent or conservation area consent where appropriate.

Legislative challenges for lake eutrophication control in Europe

Annual expenditure on maintaining and developing the SOBN is currently being reported.

Land and groundwater guidance for business

Traditional stone, or in some cases brick, surfaces and layouts should be retained wherever possible, or re-introduced where there is historical evidence for them.

Planning application forms and requirements

Specialist design and construction advice will usually have to be sought by the developer in this regard.
