With small adjustments during your cast you can allow the line to land like a feather on the surface.

NT8:4 Switch

Our SILICA Nano MATRIX contains spherical nanoparticles that penetrate evenly between carbon fibers, increasing the cohesion of the carbon fiber to achieve remarkable strength. Please ensure you retain proof of purchase as this will be requested upon making a claim under this warranty. Casting and fish-fighting cause countless amounts of flexing and unloading of the blank, the Nano-material prevents damage due to external shocks, internal stresses or fatigue.

SilverStone NT08

All our NT8 rods, including the Fario models, use an ultra-elastic IM8-46T Low Resin Material which makes it possible to create feather-light blanks with a crisp feeling that greatly improves sensitivity.

SilverStone NT08

High-strength Nano-resin graphite improves the toughness and increases durability in the rods. Our Well-equipped facilities and excellent quality control throughout all stages of production enable us to guarantee total customer satisfactions, we could also offer OEM services.

Guideline NT8:4 fly rods

These rods have not only tested as the strongest rods we have ever produced, but they are also the lightest, making them a joy to use along rivers and coastlines during long, intense fishing days. Some are strong and some are fragile. .

SilverStone NT08

Andreas Möller — Guideline HQ Sweden. I do this for several reasons; first of all I am not a big guy and to fish long days I need a light setup to make it possible.
