### Aircraft Handbooks & Manuals

Keep tools away and pick up debris near the engine. Well-lit work areas are safer. Rushing your work increases aircraft turnaround and accidents.

### Aircraft Maintenance Safety

Tall aircraft require , , and to reach work areas.

### AC 43.13

Hard hats protect you from falling objects. If an engine starts, you could be severely injured, or small items could be turned into projectiles.

### Aircraft Handbooks & Manuals

Work at a steady pace.

### AC 43.13

To avoid a fall, watch for ground lines to the aircraft. Posted at 10:09h in , , , by Aircraft Maintenance Safety Aircraft maintenance work includes inspection and repair of aircraft structures, coatings, and systems in hangars and on the air field. Sturdy work gloves protect your hands from cuts and scrapes while steel-toe work boots with non-slip soles protect your toes and decrease the chance of falls.

### Aircraft Maintenance Safety

Colliding with hard, sharp surfaces or protrusions causes bumps, bruises, and cuts. Bump caps protect you from an accidental collision with an aircraft part.

### Aircraft Maintenance Safety

Properly maintain your tools and follow safety procedures. Safety glasses, a face shield, and goggles protect your face and eyes, depending on the task and materials. When moving large, bulky aircraft parts and materials, use assistive devices or get help to make the lift safe.
