In addition, large jadeite comma-shaped beads were found about 30 cm down the slope. During the Edo period, while performing various repairs and upkeep at Atsuta Shrine, including replacement of the outer wooden box housing the sword, the Shinto priest Matsuoka Masanao claimed to have been one of several priests to have seen the sword. This sword corresponds to Hichishitō iron sword stored in the Isonokami-jingū Shrine.

The external dimensions of the furnace were about 210 by 90 cm, and its height is inferred to have been 150 cm or more.

Hachiman : definition of Hachiman and synonyms of Hachiman (English)

Yamato armies and generals often prayed to the Kashima and Katori deities for military success against the intransigents in the east. The transition from the rock-top ritual phase to the rock-shade ritual phase must have been an intermittent process. In addition, the Genkai Sea style salt-making pottery placed on a pedestal has been unearthed 44.
