Algae in Water Supplies: An Illustrated Manual on the Identification, Significance, and Control of Algae in Water Supplies.

Organic polymer achieved poor C.

Correlations between algae and water quality: factors driving eutrophication in Lake Taihu, China

Released organic material remained attached to the sulcus groove after flash mixing, but the addition of certain coagulants, notably Ca OH 2-SiO 2 , with an associated increase in pH to levels above 10, resulted in major damage to cells.

Harmful Algal Blooms

Taste and Odor Control Jour.

Physical and chemical impacts of conventional unit processes and coagulants on the dinoflagellate, *Ceratium hirundinella*

According to the control of such algae during water treatment requires optimized unit processes. Mervin Palmer ; illustrations in colour by Harold J. Harmful algal blooms are overgrowths of algae in water.
