The initial appointment is for one year, but the appointment may be renewed up to a total of three years. Formerly called Advanced Concept Technology Demonstration ACTD until approximately 2006 when the name changed to JCTD. It lasts six to twelve months and supports exploration of the technical merit or feasibility of an idea or technology.

FDA Technology Transfer Program

To view FDA technologies that are available for licensing visit the web page or the at the Federal Laboratory Consortium.

Technology transfer

National and Regional Teams The National Technology Transfer Team NTTT leads the bureau's efforts in working to achieve the goals of the Technology Development and Transfer program.

Technology Transfer Program

Not able to find a recent web site about this program but did find some Service references to this program as late as 2012. A sound technology development and transfer program ensures that the most current and valid scientific information and technologies are available to the coal industry, state and tribal staff who carry out SMCRA, and to OSMRE employees.

FDA Technology Transfer Program

The program comprises a self-paced 15-credit curriculum that can be completed in approximately two years.

NSA Technology Transfer Program

The emphasis on innovation is important in both programs and implies that you are proposing a novel approach to pressing problems or needs identified by an Agency.

Technology Transfer Fellowship Program

Transitioning technology does not come naturally and can be very difficult.

T2C

Holistic, Proactive Approach T2 occurs when a technology is handed over for further development or when it is put into practice and can involve a collection of activities leading to these pivotal points.
