## Office of Human Resources

C Not later than three months after September 15, 2014, the office shall establish clear principles to guide the development of its recommendations, shall identify in detail the problems to be addressed in the recommendations, and shall make an inventory of all state and other resources that the office considers relevant to the recommendations. F This section does not apply to other actions the department takes against the responsible county grantee pursuant to authority granted by another state law unless the other state law requires the department to take the action in accordance with this section. Sustainability of a scale-up intervention in early mathematics: A longitudinal evaluation of implementation fidelity.

## Disability and impairment

The director may adopt or amend any statewide plan required by the federal government for a program administered by the department, as necessary to implement this section.

## Title: PRESCRIBING AND DISPENSING CONTROLLED SUBSTANCES

For example, they click on pieces of food and a bite is taken out of each as it is counted.

## 6 Educational Practices

Early learning occurs rapidly, even when it is sometimes difficult for educators to observe. In particular, pairs and small groups often are optimal formats for providing students with the opportunity to participate in strong language experiences.
