The Impact of Technology on the Developing Child

We all are human, but our thinking is inspired by technologies. Entertainment technology TV, Internet, video games, iPads, cell phones has advanced so rapidly, that families have scarcely noticed the significant impact and changes to their family structure and lifestyles. A Global Ethic for the 21st Century

And yet marriage rates have been declining for 30 years.

25 Moments That Changed America: Turning Points from the 20th Century

Living our values and beliefs, the day-in, day-out performance of small services for our partners and families, the fulfilment of duty and responsibility and the slow and certain getting and giving of love rewards us boring old couples, just occasionally, with transcendence. Conclusion Technology is just as beneficial as it is destructive to the human race. A Forbes report recently listed out some transformative technologies that can change human lives over the next 10 years.

We can all help shape the new frontiers of science and technology. Here's how.

When he made a speech to that effect, Truman dismissed him from the Cabinet. Speech presented at UN Headquarters, NY, NY, September, 2010. The rise of cloud computing, cloud storage, Artificial intelligence, and Machine learning is an example, that we will be soon on the node that connects our body and capture the data of human activities in real-time.
