

The Philippines, since it is an agricultural country by nature, her inhabitants values temperature, type of soil, amount of moisture, types of crops that can be grown or types of animals and other environmental features — these become part of their concept of time, distance and relations. From the data collected during archeological excavations, Tabon cave proposes that men inhabited the country far way back 24, 000 to 22, 000 BC. This is the very reason why I chose to look for the
