Institute for Systematic Botany The Institute for Systematic Botany of the Cell Biology, Microbiology, and Molecular Biology Department at the University of South Florida was established in 1990 to promote basic research in plant systematics and to coordinate research, educational and service programs in plant systematics.

### Florida

Uncertainty interval represents the possible range of estimates with 90% probability. Situated along the banks of St. In the center of southern Florida is a lake called Lake Okeechobee.

### Waltheria bahamensis

Listed Status: Florida :Source - Plants in the Preservation of Native Flora of Florida Act. Situated in the northern Walton County near the Alabama border is Britton Hill — the highest point in Florida, that rises to an elevation of 345ft 105m.

### ISB: Atlas of Florida Plants

A voucher may be a record of a plant's occurrence in a particular area, or a specific example of a plant used in a scientific investigation. These live

protected among the dense fungal hyphae and produce carbohydrates for the fungus by photosynthesis.

### **Welcome**

Bryophytes generally live on land but are mostly found in moist environments, for they have free-swimming sperm that require water for transport.
