List of birds of Peru

Thirteen species have been recorded in Peru. Archivado desde el 15 de agosto de 2009.

Vicuña (Chile)

Con la llegada de los españoles, la región conocida como fue la primera en ser invadida y colonizada. They feed on insects caught on the wing and are glossy, elegant birds with long bills and tails.

List of birds of South America

They have a slender streamlined body, long pointed wings, and a short bill with a wide gape. They are large, bulky birds, with a small downy head, long legs, and large feet which are only partially webbed. También el embalse Puclaro, La Laguna, sus miradores naturales, las ferias artesanales y el rincón diaguita.

Vicuña (Chile)

Terns are a group of generally medium to large seabirds typically with gray or white plumage, often with black markings on the head.
