## Donlin Creek Gold Deposit, Alaska: Donlin Creek Gold Deposit

. Bureau of Mines parties have traveled hundreds of miles across virgin country during the summer. This thaws the ground around the points in the form of cylinders, which gradually grow in size until they have joined, and the ground is all thawed.

## Mercury: Mineral information, data and localities.

.

## Updates to MRDS on 22

. The study 'Indium Geology, Mineralogy, and Economics' was commissioned and funded by the German Federal Institute for Geosciences and Natural Resources BGR Hannover and is a contribution to the research program 'BGR 2000 - Raw Materials with Short Lifetime Reserves'. .

## Updates to MRDS on 22

. Dome-Duquoin inclusions yield homogenization temperatures that range between 260° and 410°C, and have between 3.

## Trenching and sampling of the rhyolite mercury prospect, Kuskokwim River Basin, Alaska / by Raymond P. Maloney

. . It is ordinarily impractical, however, in gravels over 20 ft.

## Mining Engineering : Encyclopedia Arctica 2b: Electrical and Mechanical Engineering

West-northwest trending cross sections are perpendicular to the average discordant contact orientation showing true dip of the igneous bodies. . Active glaciers were prevented from forming in the Dawson district in Canada, in the Yukon and Kuskokwim River basins in Alaska, and in

northern and eastern Siberia, not because of warmer temperatures, but because of insufficient precipitation.
