Disability Advice and Guidance

This overarching site covers the latest trends in education, employment, and everyday life for individuals with disabilities. A Student's Guide to Disability Etiquette Greetings When introduced to someone with a disability, a non-disabled individual may react to this person's appearance or affected speech.

What Students with Disabilities Should Know About Online Colleges

Regardless of their specific status, every student with a disability is entitled to the same level of inclusion, course participation, and respect as their peers. At times students may need to reach out to a national organization or start a chapter on their campus. LDA is committed to a set of Core Principles developed in cooperation with the Learning Disabilities Association.

Resources for Students with Disabilities

Deaf is not considered a disorder or disability, but colleges do offer resources for students who are members of the Deaf community and those who are deaf or hard-of-hearing. For example, diabetes and other chronic illnesses can cause people to slur their speech and stumble when they walk, giving them an intoxicated appearance.
