## Overview

Erickson CD, Splett PL, Mullett SS, Jensen C, Belseth SB. Identify medications that the patient is currently taking. In this podcast for kids, the Kidtastics talk about basic asthma facts.

## Asthma Webinars

Visit the Self-Management Resource Center website to learn more about the Locate organizations licensed to offer the program in your area on the website. Theophylline and cromolyn Intal are still listed, but these are not preferred agents, and they do not work as well as inhaled corticosteroids or leukotriene receptor antagonists.

## Treating asthma in children under 5

Parents should have a knowledge of the medications being used and should understand the role that each medication plays in the control of asthma.

## CDC

Asthma attacks are treated with rescue medications, and oral or injectable corticosteroids.

## Asthma Nursing Care Management and Study Guide

Our specialists may assume care for patients or provide a treatment plan to you and the patient to carry out proposed recommendations. Causes  
Despite increased knowledge on the pathology of asthma and the development of improved medications and management plans, the death rate from the disease continues to rise. However, there have been convincing trials to show that effective reduction in house mite population results in significant reduction of symptoms.

## **New asthma tools for schools**

The complex therapy of treating asthma at home needs collaboration between the patient and the health care provider to determine the desired outcomes and to formulate a plan to achieve those outcomes. The doctor may order other tests to help identify particular asthma triggers, including allergy skin testing and blood tests. THE NEED FOR AN ASTHMA CONSENSUS Asthma is a common condition that gives rise to considerable morbidity and mortality.

## **Asthma education for children and their families**

Wheezing may be associated with foreign body inhalation or infectious disorders such as acute viral bronchiolitis, tuberculosis, Loeffler's pneumonia and filariasis. EPA promotes environmental management as a standard of care and clinical practice and provides a variety of resources that healthcare professionals and people with asthma can use to take action. Asthma symptoms can appear when you are exposed to a trigger.

## **Improving asthma with smart technology**

Chew YY, Ton SH, Azizi O, Noriah R. CONTROL AS A GUIDE TO MEDICATION ADJUSTMENT After targeted, step-based initiation of pharmacologic therapy, the classification of asthma control is used to adjust medication, stepping up or down depending on the level of control. No one really knows why more and more children are developing asthma.
