### Do offenders avoid offending near home? A systematic review of the buffer zone hypothesis

Next, the many issues due to the impact on children when their mother is incarcerated, and the foster care system. The author outlines the differences between single homeless and families that are homeless. British Journal of Criminology, 38 2 , 230—246.

### CiteSeerX — Drugs and crime: A study of incarcerated female offenders

CrimeStat: A Spatial Statistics Program for the Analysis of Crime Incident Locations v 4. One in five children witness the arrest and suffer nightmares and flashbacks from the incident, while older children come home from school to an empty house not knowing where their mother is.

### BOP: Female Offenders

Turku: Psychology, Åbo Akademi University. Women in Bureau custody are offered many of the same educational and treatment programs that are available to male offenders; however, women in prison differ from their male counterparts in significant ways.

### Women, Girls and Offending

Less than 10% of executive directors at FTSE 100 companies are women. The purpose of the present study was to assess the validity of this hypothesis. When fathers are imprisoned, 90% of their children remain with their mother; however when mothers are imprisoned, 45% live with their grandparent, 23% live with other types of relatives, a little over 20% live with their fathers, and 11% live in foster care.
