The mound marked H, at a distance of 62 feet to the east of the terrace, is the ruin of a middle-sized temple 11 feet 3 inches square outside. Photograph from the Crofton Collection: 'Public works including the Manora Breakwater and the River Son canal system' taken in 1873.

Old and rare Photos of Bihar

At Barnirak, I found an inscription on one of the pillars of the temple describing some offerings made during the reign of Jivita Gupta, the great-grandson of Aditya Sena Deva, who is known to have reigned during the latter half of the seventh century.

Report Of Tours In North And South Bihar In 1880

Buchanan records that Hara ' Sinha divided the Maithila Brahmins into four tribes, named 1, Suti or Suli; 2, Majroti; 3, Yogya; 4, Grihastha.

Archaeological Survey of India: Reports (1862

Along the northern end of these two walls I found nothing but a deep trench, 8 feet broad, running from east to west. Carleyle had discovered a new Asoka pillar.
