The BSR promotes residential awards for research in the archaeology, history, art history, society and culture of Italy; residential awards for visual, artists and architects; a programme of exhibitions, especially in contemporary art; an interdisciplinary programme of lectures and conferences; research projects, including archaeological fieldwork; a specialist research library; a publications programme; short specialist taught courses.

Ancient Etruscan Bucchero

Rasmussen books to read online.

Roman Times: Etruscan Bucchero Ware

For the technically minded: adding wood to the kiln caused oxygen to be partially replaced by carbon monoxide, a process known as reducing firing — a classic example of an oxidation-reduction reaction. A full survey of the decorative techniques is included, and the pattern of distribution

both within Etruria and further afield is discussed. Many of the tomb-groups catalogued are published here for the first time.
