The case for a Digital Ecosystem for the Environment

In fact, the combination of the educational and scientific infrastructure with the country's most pressing problems unexpectedly made for a creative synthesis which set development into motion. Joint ventures have been undertaken in areas such as electronics, software, medical equipment, printing and computerized graphics, with many actively assisted by these binational frameworks.

The case for a Digital Ecosystem for the Environment

Unfortunately Latin America lags behind world trends, and although over the last 20 years the region has established a more stable and certain macroeconomic regime, it is also clear that these changes have not been enough to trigger a process of innovation and productivity to catch-up.
