However, the title Daodejing appears not to have been widely used until later, toward the close of the Han era. Although the majority of scholars accept the authenticity of the find, a notable critic is Xing Wen, who argues strongly that it is a forgery Xing 2016; for a critical discussion in English, see Foster 2017. The earliest record of Chinese cartography can be dated back to the early years of the Western Zhou dynasty in the 11th century BC.

Yan Zun is well remembered in traditional sources as a recluse of great learning and integrity, a diviner of legendary ability, and an author of exceptional talent. The Beida Laozi is almost intact in its entirety, missing only some 60 characters when compared with the received text. This unique collection is cross-searchable with all ProQuest historical and current newspapers, as well as with other resources your library subscribes to on ProQuest.

Boyi and Shuqi

The way in which natural phenomena operate reflects the workings of the Dao. They are syntactically clearer than the received text in some instances, thanks to the larger number of grammatical particles they employ. Groups B and C are smaller, with eighteen chs.

Laozi. (1965 edition)

Disagreements abound on every front, including the name Laozi itself.

Laozi

As mentioned, the current Laozi on which most reprints, studies and translations are based is the version that comes down to us along with the commentaries by Wang Bi and Heshanggong. Chinese Classics: Tao Te Ching, Hong Kong: Chinese University Press.
