The loneliness epidemic: We're more connected than ever

For example, one study found that loneliness is lower in people who spend at least some time each week volunteering Flood 2005 , while another study found no relationship between loneliness and volunteering, socialising and participating in sport and community organisations Baker 2012.

Social isolation and loneliness

Loneliness or perceived social isolation is related to but distinct from objective social isolation, defined by the number of persons in the environment. Her book, A Biography of Loneliness, will be published in 2019 In the UK, Samaritans can be contacted on 116 123. We all say that our loved ones matter to us far more than our work, our status, our things; but it's important that this sentiment truly be reflected in our allocation of time and energy.

Battling the Modern Behavioral Epidemic of Loneliness: Suggestions for Research and Interventions

Country of Publication: United States Publisher: New York : Columbia University Press, 1953.
