Strong leadership matters: A principal's perspective on leading through a pandemic

The principal helps to spell out that vision and get all others on board with it. A major reason for the attention being paid to principals is the emergence of research that has found an empirical link between school leadership and student achievement. It identifies 23 states that, as a group, enacted 42 laws regarding school leadership in the 2010 legislative session alone.

You have to be able to deal with each of those situations effectively by connecting with the person and showing him that you care about his unique situation. This will always be an ongoing process. Each of those components needs to be oiled every once in a while.

Perceptions of School Leadership: Implications for Principal Effectiveness

Once an issue at the margins of school reform, boosting school leadership has climbed high on the policy to-do list. New York: The Wallace Foundation. These practices include framing and communicating a school's goals and mission, creating shared expectations of high performance, clarifying roles and objectives, and promoting professional development.

Characteristics of an Effective School Principal

Sometimes it might be having a discussion with a teacher to get his side of a story and then relaying that to the parent. Consider a 2010 survey of school and district administrators, policy advisers, and others in the education world.
